Welcome message

you to attend **The International Egyptian Czech Conference for Nanotechnology Applications in Agriculture Sector IECCNA 2017**,. We cordially invite all the participants who are interested in sharing their knowledge and research in the arena of **IECCNA 2017** Conference. The conference aims to bring together leading academic scientists, researchers and research scholars to exchange and share their experiences and research results on all aspects of Nanotechnologies in Agriculture

Message

present and discuss the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in the fields of Nanotechnologies in Agriculture

Objectives

- Present the most promising results of collaboration project between Egypt and Czech republic
- Attract high quality papers in different subfields.
- Offer the opportunity to be updated on the latest research outputs on several Nanotechnology and its applications in agriculture.
- Organize specific workshops around the most attractive and current issues.
- Gather worldwide experts as conference speakers.

Conference Topics

- The role of the economic sector in sustainable development.
 - Nanotechnology In Agriculture
 - Nanomaterials in food, water management Technology & sustainable agriculture best practices.
 - Nanotechnology In Food Industry & Microbiology
 - Nanotechnology For Controlled Release
 - Nanotechnology And Risk Assessment
 - Nanotechnology :Health & Safety Issues
 - Post-harvest treatment Nanotechnologies in agriculture
 - Nanotechnology for energy and environment Nanopesticides
 - Private and public sectors collaboration in agriculture technology development
 - Green nanotechnology
- And all other related topics

Workshops

1- Nanotechnology applications

2- New trend of Nano-pesticides & Fertilisers by Nanotechnology
