

### Partial List of Confirmed Speakers

<b>Speaker</b>	<b>Institution</b>	<b>Topic</b>
Paul Dumas	SOLEIL Synchrotron	Status of Infrared Spectroscopy and Microscopy in Synchrotron Facilities: Present and Future Opportunities
Herman Winick	Stanford Synchrotron Radiation Lightsource	An Introduction to Directions for Fourth Generation Light Sources
Zahid Hussain	Lawrence Berkeley National Laboratory	Overview of Phase II Beamlines and Some Examples on Science of these Beamlines
Samar Hasnain	University of Liverpool	Protein Crystallography: From Fundamental Biology to Drug Discovery
Mukhles Sowwan	Al-Quds University	Synchrotron Radiation and Nanotechnology
Adel El Nadi	Cairo University	Time-Resolved Pump-Probe Experiments using Synchrotron and Laser Radiation
Irit Sagi	The Weizmann Institute of Science	
Uwe Bergmann	Stanford Synchrotron Radiation Lightsource	Rapid-Scan X-ray Fluorescence Imaging of Ancient Documents
Jean Susini	European Synchrotron Radiation Facility	Imaging at Sub-micron and Nano scale
Graham N. George	Canadian Light Source	X-ray Absorption Spectroscopy
Joel L. Sussman	The Weizmann Institute of Science	
Engin Ozdas	Hacettepe University	Applications of SR Techniques on Materials Science
Joan Bordas	ALBA Synchrotron Light Facility	Progress Report
